HERB & SPICE PUREES

In frozen drops

Our single herb purees are very fine purees made of the fresh leafy greens and stems of the plants.

They contain more than 50% of high quality by-product. The spices are acquired from the other parts of the plant – the roots, stems, bark, and seeds. We are also very proud of our herb & spice mixes. In a small dose, you can bring a world of different flavours to your dishes.

FORGET ABOUT POWDER

Drying process is as old as the human being it also tastes as old. Most of its flavour however is conserved in the watery component. We conserve all the freshness of your basil into a fine puree.

HELP REDUCING WASTE

Did you know that our ginger uses the whole root!? Our unique grinding procedure makes it possible to the use whole root without peeling it; more flavour, less waste.
