

# SMOOTHIE BOWLS

*In frozen drops*

Ever tried to make a proper thick bowl  
in the blender?

Yes, then you know the blender  
struggles with the high viscosity. No?  
then don't try it. Our frozen drops are a  
solution made in heaven.

All ingredients pre-blended & correct  
viscosity when defrosted. After  
defrosting in the fridge for a few hours  
you can add your favourite toppings.

They don't even sink in the bowl,  
Bon Appetit !

## BYE, BYE BLENDER

Cleaning blenders the whole day and struggling  
with time & viscosity to prepare.  
It is over, we have done it for you.

## DELICIOUSLY VEGAN

All our bowls are not only great in taste but also  
vegan and can be served at any time of the day.  
Great flavours make happy customers!

## MAIN ADVANTAGES

- ✓ Always right viscosity
- ✓ A real tasty meal
- ✓ Skip the blender please

## MISE-EN-PLACE

**Take out** the required pellets the evening before and let it defrost in the fridge.

It takes around 4-6h, don't heat it in the microwave. You want to keep the flavors & colors, don't you?

## EXCELLENT CONSISTENCY

This means that the toppings will not sink in, as you might see happening with other methods.

Leave them in the fridge with toppings for up to 6 hours!
